# EASY CHAIR WHEELCHAIR SEATS

## Model: COMFORT

EASY CHAIR - COMFORT is a modular and flexible seating system for both manual and electric wheelchairs.
The seating system has been developed with focus on comfort to the user, user-friendliness to the caregivers and expense reduction to the local authorities.

### BACKREST
The backrest of COMFORT is straight, but it is possible free of charge to change between types of back cushions with more or less support.

### SETTING OPTIONS
Adjustable in all directions for optimal adaptation of the sitting position.
It is possible easily and quickly to insert loin wedges and wedges for correction of crookedness into both seat and back cushions.

### MOUNTING PROFILE
Extras such as leg supports, body supports, table etc. can be mounted.
Most of the positioning systems in the market can be used.
